[O O AutoBackup Professional 5.1.157 Incl License Key](#)

The screenshot shows a Linux desktop environment. In the foreground, a 'Software & Updates' window is open, displaying the 'Livepatch' tab. The 'Livepatch' section is turned 'ON' and shows a message: 'Canonical Livepatch has experienced an internal error. Please refer to <https://wiki.ubuntu.com/Kernel/Livepatch#Commonissues> for further information.' Below this message are 'Revert' and 'Close' buttons. In the background, a terminal window shows the output of the command 'sudo apt update'. The terminal output includes several lines of error messages, such as 'Ign:2 http://ppa.launchpad.net/teejee2008/ppa/ubuntu bionic InRelease' and 'Get:15 http://dl.google.com/linux/chrome/deb/stable Release.gpg [819 B]'. A 'Question' window is also visible in the background, partially obscured by the terminal and the update window.
